SCHOOL

--**Fundraiser that takes no effort!**: Help us earn money for our school without doing anything!! Download the Shoparoo app to your phone, select our school from the list and start taking pictures of your receipts when you shop somewhere! It literally takes just a few minutes and schools with just 40 supporters are earning an average of \$1,000 a year--that is free, easy money for our kids and you don't have to sell anything or deliver anything or DO anything but what you are already doing to live life anyway!!! Please share this with friends and family, because they can help, too, they just pick our school!!

--**School Counselor Survey**: Looking for your feedback...Mrs. Jones is always looking for ways to improve and better meet the needs of students and parents. If you are a parent, please take a 2-3 minutes to answer the survey on the link below so she can use the information as she makes plans for 2017-2018! THANK YOU so much, in advance. (The live link is also available on the school Facebook page a few posts down.)

If you leave a phone message, I will call you back—unless you specify in your message you are just giving me information. If you email me, I will always let you know I got your email, even if it is just with a "Thank you." or a smiley face. If you contact me and don't hear back from me, something happened and please try again!

- Find out more information about the Community Assistance Program (CAP) discount prescription card that was established in response to the many requests for assistance for the uninsured and underinsured with their prescription needs. The CAP card saves the cardholder an average 15% on brand name medications, and 55% on generic medications. The discount prescription cards are accepted at over 80% of pharmacies in the US and its territories, including Puerto Rico. Anyone can use the CAP card, regardless of age or income. Our discount prescription card can allow someone to fill a prescription when they may normally go without. Visit their website at <http://www.caprxprogram.org/Index.aspx>.
- Check with your doctor. He/She may have samples and/or a coupon for your medicine or he/she may be able to prescribe a similar, but cheaper medicine, depending on your needs.
- Contact your insurance company. Sometimes they will work with you or offer suggestions.
- Contact the drug company. Many have programs to offer free or discounted medication to families who qualify.

COLLEGE/CAREER INFO—It is never too early!

--**May 15 is the FAFSA update deadline! It is HUGE financial aid deadline!!!:** Any FAFSA information that needs to be updated for you or your child from getting your taxes done this year, etc. (if they are graduating in May/December) if you/he/she is planning to go to college during the 2017-2018 school year must be done by this date! DO NOT miss this deadline! Every dollar you can get to help pay for college is important!

NOTE:

- Students already in college MUST fill this out every year, as well!!
- AND 21st Century Scholars MUST fill this out (starting HS graduation year) every year, even if they defer that first year!
- IT DOES NOT COST MONEY, so if you get to the end of the website and it asks for money, it is a scam (it is a company charging money to file the FREE paperwork for you!) so delete your info and go to the correct site!
- Even if your taxes are not done yet, you can put in last year's tax info and then update it by May 1 with 2016 tax information and stay current with the FAFSA.
- This is the website: <https://fafsa.ed.gov/>
- MAKE SURE you write down the email and login/password you use.
- You will also want to check your email periodically over the next few months to make sure they don't send you an email about something you need to complete or fix!

--**Don't miss a step in getting to college:** Receive text messages for any of your children in grades 7-12 periodically telling you what they need to be doing to get to college. Text the word "grad" plus their high school graduation year to 69979.

Seniors	grad2017
Juniors	grad2018

--Have older children?

- **Wondering how to pay for college?** Use the Indiana College Cost Estimator to estimate your family contribution to your child's college. The site uses the FAFSA formula for younger students to give you an idea of what you will have to pay once they are old enough for college! You will need financial information, but the site is very secure. You can compare up to three college costs at one time, including information like GPA, class rank, test scores, etc. that may qualify your child for additional aid. Many students (grades 11-12) registered for an account (submitting no financial info) during Guidance Presentations previously and will have logins and passwords created already. Access it through www.learnmoreindiana.org or <http://www.indianacollegecosts.org/>. See the attached info for the changes that have been made to the FAFSA process. [ATTACH]
- **Check out the college information process!** See the attachments on How to Apply for College (what to do when), Top College Search Questions, and 6 Things You Should Know About Scholarships. [ATTACH]

- **Up Next Text Messaging Tool:** A special service for juniors and seniors, college students and graduates, all you need to do is text COLLEGE to 44044 to get personalized texts with reminders and info about the college application process, financial aid, and federal loan repayment options. Great resource!
- **21st Century Scholars**
 - Reminder that families only have 7th and 8th grade to register their children for 21st Century Scholars (a financially-based scholarship program. After June 30 of their 8th grade year, students are no longer eligible. Contact Mr. Aly or Mrs. Pitcock at the MS with questions or visit the website at: <http://www.in.gov/21stcenturyscholars/>
 - **21st Century Scholars Scholar Success Guide** - This resource provides support to Scholars as they work to complete the Scholar Success Program requirements beginning with the class of 2016. The Scholar Success Guide also instructs Scholars in their use of the new ScholarTrack. Students who do not complete the three requirements each year, could very likely lose the scholarship, so it is important to make sure you are meeting all the guidelines to keep your child eligible. Contact Mr. Aly at the HS with questions.
 - **See attachments for requirements for 21st Century eligibility and activities for current scholars.** [ATTACH]

This is also a great time to have Scholars update their contact information - phone numbers, mailing addresses and email addresses. Scholars can go to www.in.scholars.gov to complete any updates.

- **New College Completion Requirements for state financial aid awards:** Students first entering college in the 2013-2014 academic year will be required to meet certain completion requirements to renew state financial aid awards in 2014-2015. Students receiving the Higher Education Award, the Freedom of Choice Award, or the 21st Century Scholars Award must complete at least 30 credit hours during their first year of college to remain eligible for the maximum financial aid award. A student who completes at least 24 credit hours during his first year will remain eligible for financial aid, but will receive an amount that is less than a student who completes 30 credit hours. More information about these requirements is available at www.in.gov/ssaci.

Raising a child isn't easy, especially in today's world when so many of us also have to earn a living. At SIEOC, we understand that one of the greatest stresses for a parent who has a job is finding a good child care provider. So we provide the Child Care Resource and Referral (CCR&R) program services to help you get in touch with the best child care provider for your family. We continually work to increase the availability of child care, and we assist the state with collection of data on the quality and availability of child care in the area.

Contact SIEOC today so that we can help you with one of the greatest decisions in your life – the right child care choice for your family.

our mission
To promote quality child care for all children by providing information, education and support to families, child care providers and the community.

services for communities

- Conduct surveys on the child care system such as needs assessments and market rates through Paths to QUALITY™
- Increase awareness of quality child care
- Provide workshops to community members
- Coordinate early care and education efforts to create child care settings that help children grow and learn

Research shows that high quality early learning experiences prepare children for future success in school, work and life. From birth through age 3 is the most important time for growth of the human brain. A child's brain develops in response to the child's experiences by building neurological networks in reaction to the environment.

Paths to QUALITY™ provides information on how to choose quality child care in licensed centers, licensed child care homes or unlicensed registered ministries. It is a voluntary system for child care providers who are willing to go beyond the minimum state requirements of licensing to provide a higher level of care. Paths to QUALITY™ helps child care providers learn new ways to improve the quality of their care and give families more choices when selecting quality child care.

If you are a child care provider, call to find out how Paths to QUALITY™ can help you. If you are a parent, encourage your child care provider to register.

CHANGES TO THE FAFSA: WHAT YOU NEED TO KNOW

The submission date for the FAFSA, and the financial information needed to complete it, will be changing. Here's what you should know.

SUMMARY

Starting with Academic Year 2017-18, the traditional **FAFSA (Free Application for Federal Student Aid) submission date of January 1 will change to October 1**. In addition, families will be able to use tax information from the prior year. The **January 1** start date made it difficult for families to get their tax information gathered in time to complete the application. By moving the start date up three months earlier to **October 1**, students will have more time to fill out this vital information, they'll have tax information at hand, and families will have more time to evaluate the school's financial aid award package.

WHAT IT MEANS

Students enrolling for academic year 2016/2017 will submit a FAFSA beginning January 1, 2016; families should use their 2015 income tax information. **Students enrolling for academic year 2017/2018** will submit a FAFSA beginning October 1, 2016; families should again use their 2015 income tax information. **Impact:** With more time to award financial aid, some schools may choose to adjust their calendar. This could mean changes to the admissions timeline as well as the timing for financial aid award letters and tuition bills. Students should check their colleges of choice to see if any dates or submission deadlines change.

Your stress-free guide for applying to college

Junior year

September

Have the “college” talk with your parents.
Where do you want to go? What major? How much can you spend?

October

Take the PSAT!
It can give you an idea of where you fall in the college applicant pool. Plus, your scores may make you eligible for national scholarships.

November

Consider how you'll pay for college.
Take a look at different types of loans and scholarships. From the exceptionally tall to the llama enthusiast, there's a scholarship opportunity for everyone!

December

Take the ACT/SAT.
These tests are crucial to figuring out which schools are a good match for you. Be sure to take practice tests and even a prep course to ensure that you get your best score possible.

March

Make a list.
Once you have a list of possible schools, start planning your visits. Counselors often recommend visiting six to eight colleges to keep a narrow, focused list!

Senior year

August

Start your essays!
With your top schools in mind, start drafting your work and be sure to leave yourself time for edits, edits, and more edits.

September

Secure letters of recommendation.
Reach out to teachers, coaches, and employers who would be happy to write you a glowing review. Don't forget to send them a thank you note afterwards!

October

Submit your FAFSA.
Some student aid programs award funds on a first-come, first-served basis so don't wait too long to submit your FAFSA.
Consider re-taking standardized tests.
You can also re-take your SAT to try to raise your score.

November

Stay on top of deadlines.
Don't let the date for early application sneak up on you. Many schools have different application deadlines; make sure you know when everything is due.

January

Apps are due!
January 1st is the universal deadline for most schools' applications, so make sure yours are in. If you applied early action, you could get your decision letter any day.

February

Mail's here!
Keep an eye out for your college acceptance letters.

March

Watch for award letters.
This is when you'll get financial aid award letters from the schools that have accepted you. Compare them to see which offers the best financial aid package.

April

Decision time!
After deciding where you'd like to go, make sure to stay on top of communications from your school. Deposits, forms, and housing apps are all due prior to leaving in the fall.

May

Make a budget.
Talk with your parents to figure out how much you'll expect to earn and pay while at school. Having a budget will start you on the journey toward financial responsibility.

Summer

Final to-do items.
This is the time to attend orientation, register for your classes, and make sure the tuition bill is paid. It's also the time to have fun—and have an amazing time!

Before you go

Applying to college is a busy time

With all the essays, forms, and deposits, it's easy to overlook some of the simple tasks. Don't forget to:

- See if your bank has branches and/or ATMs in your college's city. If not, consider opening a bank account at a local bank.
- Limit roaming charges by double checking your cell phone plan. Does your plan cover your college's location?
- Coordinate with your future roommate: Two TVs, two microwaves, and two futons are too much in a dorm.
- Get checked up! Visit the eye doctor, dentist, and physician before heading out.
- Make a plan to keep in touch. A video chat with your best friend or an old school letter from your family can be a nice reminder of home.

6 Things You Should Know About Scholarships

And how to get started finding free money for college

1 There are scholarships for everyone, not just jocks and geniuses

Don't sell yourself short — millions of scholarships are out there for almost every talent and interest. Are you a vegetarian? Roller skater? Star Trek fan? Yup, there's a scholarship for that.

2 Even a few hundred dollars can make a big difference

Some scholarships offer big money, some not so much. Apply anyway. Even if you only get a few hundred dollars, that can help pay for textbooks or other expenses. Bottom line: scholarships are money in your pocket that you won't have to pay back.

3 It's really worth the time and effort

Sure, you might have to write a few essays but it's worth it. Scholarships are free money! Be sure to follow guidelines and be mindful of deadlines. A late submission can eliminate you from consideration.

4 Watch out for scholarship scams

Don't pay for scholarships. Period. There are many reputable and free scholarship search sites. Get recommendations from your school about good sources.

5 You can apply even if you're already in college

Making your money work harder

A 529 plan account's earnings grow tax deferred and qualified withdrawals are tax free.* That tax advantage can potentially add up over time.

As you can see in the chart below, the difference between tax-free and taxable growth can be significant. If an investor opened a 529 plan account with an initial investment of \$2,500 and contributed \$100 every month for 18 years, there could be over \$6,300 more for qualified education expenses than the same investment in a taxable account.**

* Earnings on non-qualified withdrawals are subject to federal income tax and may be subject to a 10% federal penalty tax, as well as state and local income taxes. The availability of tax or other benefits may be contingent on meeting other requirements.

** Assumptions: \$2,500 initial investment with subsequent monthly investments of \$100 for a period of 18 years; annual rate of return on investment of 5% and no funds withdrawn during the time period specified; taxpayer is in the 30% federal income tax bracket for all options at the time of contributions and distribution. This hypothetical is for illustrative purposes only. It does not reflect an actual investment in any particular 529 plan or any taxes payable upon distribution. Actual investment returns may be higher or lower than those shown.
